

Product information: Letterboxes

In our collection we have timeless mailbox models, which are available in either Corten Steel or powder coated Aluminum.

The Aluminum powder coated models can be made in almost any RAL colour. It is possible to order numbers and letters for any of the models (glue will be supplied).

All letterboxes have a lockable door on the back side and are supplied with two keys. They are in the blue envelope which will be on top of the letterbox.

Advantages Corten Steel:

- Very strong, wear-resistant and durable
- Low-maintenance
- Weatherproof and durable material
- Warm and natural appearance
- We only use Corten Steel category A type S355JOWP
- We recommend 'Owatrol' varnish which will stop the planter from rusting any further (available from us)
- 5 year warranty

Advantages Aluminum:

- Very strong, wear-resistant and durable
- Light in weight
- Resistant to corrosion
- Scratch resistant coating
- Available in almost all RAL colours
- Professional cleaning and care product available from us
- 5 year warranty

Important:

- Corten steel products are delivered un-rusted
- Aluminum products should be cleaned at least once a year. Preferably with a cleaning and care product especially for Aluminum (Alu-cleaner available from us).
- The products must be unpacked immediately after delivery so any moisture between the packaging and the product is not sealed.
