DESIGN TO GROW

Socles

Socles

This socle will add extra flair to any garden. The plinth, which is typically used to display a statue or fire bowl, can also be used outside the garden. For example, it will look attractive in galleries or other public spaces.

**OPTION
CUSTOM MADE**

Material corten steel

Create a beautiful garden with the sleek lines of this socle. The socle is perfect for showcasing artworks, water bowls and fire bowls. The product is made of corten steel, giving it a bold, warm look that works well with the lush greenery in a garden. A real eye-catcher!

Corten steel has an orange-brown colour, the result of a natural rust layer. Another name for corten steel is weathering steel: weather conditions have a positive effect on this material.

Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to steel. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion, so the socles will last for many years.

SPECIFICATIONS

- 5-year guarantee.
- Load-bearing capacity of up to 150 kg.
- Corten steel socles are hard-wearing, weather-resistant, low-maintenance and durable.
- The corten steel has a standard thickness of 2 mm.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the socle and stops the rust on corten steel flaking off.

KEY POINTS TO NOT

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by hosing off dirt with clean tap water.

OPTIONAL

- For the perfect decorative complement to your socle, see our fire bowls and water bowls!

Material aluminium

Create a beautiful garden with the sleek lines of this socle. The socle is perfect for showcasing artworks, water bowls and fire bowls. Made of aluminium, this product has a stylish and timeless look that will work well with the lush greenery in a garden. A real eye-catcher!

Aluminium is corrosion resistant. This makes the socle able to withstand freezing temperatures and other weather conditions without damage. You will be able to enjoy this product for many years. The aluminium socle is also available in different colours.

Once constructed, the aluminium socle is given several finishing treatments. The metal is roughened to allow better adhesion of the powder coating. This powder coating is available in a variety of colours and is applied with a strong adhesive primer. Finally, the aluminium is finished with a hard topcoat. This ensures that our socles are scratch resistant.

SPECIFICATIONS

- 5-year guarantee.
- Load-bearing capacity of up to 150 kg.
- Aluminium socles are very robust, hard-wearing, resistant to corrosion and durable.
- The aluminium has a thickness of 3 mm.
- Scratch-resistant topcoat.
- We also supply professional maintenance products.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by hosing dirt from the socle with clean tap water, followed by cleaning with detergent. Do not use a pressure washer and/or scouring pad for this purpose. This damages the coating.

OPTIONAL

- For the perfect decorative complement to your socle, see our fire bowls and water bowls!

RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016.

For all other available RAL colours, please check our website. There is a start-up charge for these colours.

Note! Colours may vary from the image.

Installation

- 1.** Provide a flat, solid surface. If not done carefully, it can create tension in the product which can result in damage to the product.
- 2.** Reinforcements in the socle are essential for the construction and dimensional stability of the socle. Changes should never be made here.
- 3.** Always provide sufficient breathing space (at least 1 cm) around the products to prevent moisture trapping.

Accessories

All our accessories meet the highest standards and are a highly suitable addition to our products. Visit www.adezz.com for a complete overview of our accessories.

RUST ACCELERATOR

CORTEN STEEL

Our corten steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

CORTEN VARNISH

CORTEN STEEL

Corten varnish can be applied to the corten steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

CLEANER & PROTECTOR

ALUMINIUM

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
