IGNITE YOUR NATURE

**LOGGER**

# LOGGER

This original garden storage cabinet is ideal for storing wood, kindling and garden tools. The LOGGER is available in corten steel.

## FEATURES

The LOGGER is the perfect storage unit for all your wood and garden tools. The cabinet has several compartments to make stacking and organising easy. The doors keep everything dry and clean. The LOGGER is heat resistant and can be positioned next to your outdoor fireplace. The warm tone of corten steel perfectly complements the natural look of stacked wood, making the LOGGER the ideal combination with our open wood stores.

The LOGGER is made of corten steel, which develops an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

## SPECIFICATIONS

- 5-year guarantee.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a thickness of 3 mm.
- Reinforced to prevent warping.
- Includes lock.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- Always place the wood store on a flat, stable surface.
- We advise securing the wood store to a wall to ensure stability.
- Products are delivered without rust. The corten steel rusting process takes about 4–5 months, depending on weather conditions. You can speed up this process by using our rust accelerator.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust from flaking off.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.

# Models

# Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit [www.forno.eu](http://www.forno.eu) for a complete overview of our accessories.

## **RUST ACCELERATOR**

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

## **CORTEN STEEL VARNISH**

Corten varnish can be applied to the Corten Steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

# FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
