IGNITE YOUR NATURE

RONDE

RONDE

Ignite the RONDE for a wonderful evening in the garden with family and friends! Ideal for warming up a cosy conversation pit. Add the grill grate, and the RONDE can also be used as a barbecue.

FEATURES

Create a pleasant and inviting atmosphere in your garden with our round fire table. Enjoy evenings outdoors to the fullest with friends and family with the RONDE. Its round form invites everyone to sit around it and enjoy the warmth of its flames. Add the grill grate, and the RONDE can also be used as a barbecue. A multifunctional product that will perfectly complement other corten steel elements in the garden.

The RONDE is made of corten steel, which develops an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

SPECIFICATIONS

- 5-year guarantee.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a thickness of 3 mm.
- Does not include grill grate.
- The fire table has feet, which raise it 30 mm from the ground.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- Always place the fire table on a flat, stable surface.
- Products are delivered without rust. The corten steel rusting process takes about 4–5 months, depending on weather conditions. You can speed up this process by using our rust accelerator.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust from flaking off.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.

Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.forno.eu for a complete overview of our accessories.

RUST ACCELERATOR

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
