

## FIBREGLASS FURNITURE

### Product description

Because the furniture is made of high-quality reinforced fibreglass and this reinforcement is placed in the corners, the corners cannot tear.

In addition, all fibreglass furniture is fitted with adjustable feet, so that it can always be placed neatly straight outside on uneven ground.

The furniture is coloured through the entire material and will therefore retain its colour. As standard all fibreglass furniture is supplied in RAL 9016.

## IMPORTANT

### Points of attention

- All packaging materials must immediately be removed from the products.

### Maintenance

- Clean at least 2x per year. Rinse the furniture with clean tap water to remove dirt (Do not use a high-pressure cleaner!) Spray the ADEZZ BIO cleaner/protector on the outside of the product (100% biodegradable). This ensures all dirt is drawn out of the pores. Rinse with clean tap water again. After this apply the ADEZZ BIO cleaner/protector again on the planter to protect your furniture against dirt.

**Note!** Do not use a high-pressure cleaner or abrasive sponge.

- Adezz maintenance products are available (page 4).

# PLACEMENT

## PLACEMENT

1. Provide a flat, solid surface. If not done carefully, it can create tension in the product which can result in damage to the product.
2. Adjust the adjustable feet to ensure the table and benches are level.
3. Reinforcements in products are essential for the construction and dimensional stability, therefore must never be removed!
4. Always provide sufficient breathing space (minimum 1 cm) around the product to prevent moisture trapping.
