LANDSCAPING OUR FUTURE

STORR BENCHES

Product description

The STORR Series is attractive due to its simplicity, both visually and price-wise. The STORR table in combination with the STORR single seat makes a beautiful picnic set. Thanks to the modular leg, the bench can also be blindly connected. If the sofa is longer than the standard length, it will be provided with an extra support in the middle of the bench.

In the same series we also have a **picnic set, picnic combination, litter bins and bicycle racks**. You can find these at our product categories.

SPECIFICATIONS

General

Our benches are always equipped with:

- Mounting holes for fixing to surface
- Warranty 5 years (expiring)

Standard material

Frame material

- Corten steel 10 mm
- Galvanised steel 10 mm + 2 layer powder coating

Seat material

- Material: Garapa
- Head sizes: Varibo

Options

- Moso Bamboo Extreme Seat
- FURNS Concrete footing

IMPORTANT

Points of attention

- All products must be unpacked immediately after delivery.
- Every kind of (hard) wood will turn grey under the influence of UV radiation, weather and wind. The final colour depends on the starting colour.
- Wood is a natural product that "works" and will shrink or expand depending on temperature and moisture content.
- Hardwood can turn black when in contact with Corten steel, which will eventually turn gray.
- Corten Steel should never be constantly in moisture, it should drain well and ventilate in all situations.
- Corten Steel products are not (fully) rusted on delivery, we only use Corten steel type S355JOWP.
- Coastal areas: We do not recommend using Corten steel within a radius of 2 km from a coastline.
- During the weathering process rust residue can come off the product, which can result in stains.
- Drilling / grinding in the material is not permitted.

Maintenance

- Regular cleaning (WOCA exterior cleaner) and sealing (WOCA exterior oil) of the wood ensures that the pigment in the wood is retained longer and the discolouration process is delayed.
- Annual cleaning by removing dirt using clean tap water.

Note! Do not use a high-pressure cleaner.

PLACEMENT

PLACEMENT

1. Provide a flat, solid (vibrated) surface. If not done carefully, it can create stresses in the product which could result in damage to the product.
2. Mark the position of the holes at the bottom of the STORR bench and drill holes in the pavement.

3. Place the STORR bench on the flat pavement, so that the holes in the uprights match the drilled holes.

Because the STORR bench can be placed on the pavement, the bench can be placed anywhere, without having to dig.

4. Fix the bench to the pavement with plugs or possibly a chemical anchor.

Pay attention! Loosely tighten all bolts first, after which they can be tightened one by one.

ACCESSORIES

ACCESSORIES

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.furns.com for a complete overview of our accessories.

CONCRETE FOOTING

We advise to place our products on our uniform concrete bases. These are suitable for installation below ground level. As standard, they are fitted with screw sleeves for easy mounting of our products. See the table below for the corresponding bases per model.

Product	Model	Concrete footing	Quantity
STORR 600	STBE.600	600	2
STORR 1500	STBE.1500	600	2
STORR 2300	STBE.2300	600	2
STORR 4000	STBE.4000	600	3
STORR 2300 TABLE	STTA.2300	250	4
STORR 2300 COMBINATION	STPNC.2300	250 600	4 4
STORR 2300 SET	STPN.2300	600	4

CLEANER & PROTECTOR

We recommend cleaning our products at least once a year. For optimal results, use the ADEZZ BIO Cleaner & Protector detergent. Always read the instructions on the package carefully before use.

CORTEN VARNISH

To stop the rusting process, Corten varnish can be applied on the Corten products. Always read the instructions on the package carefully before use.
