IGNITE YOUR NATURE

FORMA

FORMA

The daring, irregular shape of the FORMA makes it stand out. A beautiful addition to almost any garden, this six-sided fire bowl has a special air intake on the base.

FEATURES

Make your garden even cosier with our FORMA fire bowl. This fire bowl has a distinctive design. The hexagonal fire bowl almost seems to emerge from the ground. This makes the fire the focal point of your garden. An attractive fire bowl makes evenings around the fire with family and friends even more special. This corten steel fire bowl combines beautifully with other corten steel elements in your garden.

The FORMA is made of corten steel, which develops an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

SPECIFICATIONS

- 5-year guarantee.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a thickness of 2 mm.
- The base of the fire bowl is made of 3 mm-thick corten steel.
- It has an air intake at the bottom to ensure your fire burns well.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- The fire bowl should be placed on a firm, flat, heat-resistant surface.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions. You can speed this process up by using our rust accelerator.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust flaking off.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.

BOLE

HALO

Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.forno.eu for a complete overview of our accessories.

RUST ACCELERATOR

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website.

Always read the descriptions on the packaging carefully before use.

FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
