**Ponds**

# Ponds

This modern pond is available in square and rectangular versions. The still water in the pond creates a calm atmosphere in the garden.

CUSTOM MADE**

# Material corten steel

Tranquil and evocative, our corten steel pond is a wonderful addition to your garden. The pond is suitable for plants and fish, making this water feature a beautifully dynamic garden element. We coat the interior surfaces of our corten steel ponds with polyurea, so the metal will not corrode. Our ponds are equipped with a fixed overflow pipe as standard. They can also be ordered with optional inlet holes drilled on either the short or long side.

Corten steel has an orange-brown colour, the result of a natural rust layer. Another name for corten steel is weathering steel: weather conditions have a positive effect on this material.

Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion, so the ponds will last for many years.

## SPECIFICATIONS

- 5-year guarantee.
- The product can be customised.
- The interior surfaces are coated with black polyurea. This prevents the water in the pond causing corrosion.
- Corten steel ponds are hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a standard thickness of 3 mm.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust on corten steel flaking off.

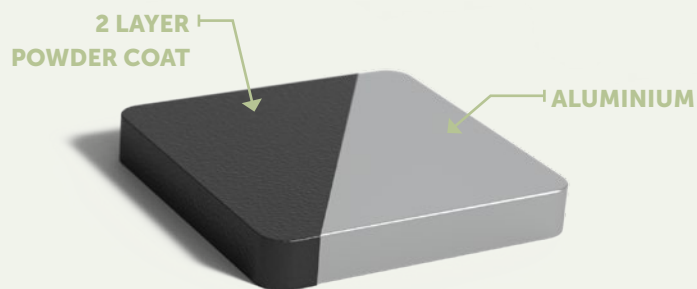

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee expires if you drill or grind in a way that is not specified.
- The water used in this product should have a neutral pH value (7) to protect the look and quality of the material.
- Clean annually by spraying coarse dirt off the product with tap water.

## OPTIONAL

- For more dynamic garden elements, see our pond walls!

# Material aluminium

Tranquil and evocative, our aluminium pond is a wonderful addition to your garden. The pond is suitable for plants and fish, making this water feature a beautifully dynamic garden element. Our ponds are equipped with a fixed overflow pipe as standard. They can also be ordered with optional inlet holes drilled on either the short or long side.

Aluminium is corrosion resistant: the pond can withstand freezing temperatures and other weather conditions without damage. You will be able to enjoy this product for many years. The aluminium pond is available in different colours.

Once constructed, the aluminium pond is given several finishing treatments. The material is roughened to allow better adhesion of the powder coating. This powder coating is available in a variety of colours and is applied with a strong adhesive primer. Finally, the aluminium is finished with a hard topcoat. This ensures that our ponds are scratch resistant.

## SPECIFICATIONS

- 5-year guarantee.
- The product can be customised.
- Aluminium ponds are robust, hard-wearing, resistant to corrosion and durable.
- The aluminium has a thickness of 4 mm.
- Scratch-resistant topcoat.
- The interior surfaces are coated with black polyurea.
- We also supply professional maintenance products.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- The guarantee expires if you drill or grind in a way that is not specified.
- The water used in this product should have a neutral pH value (7) to protect the look and quality of the material.
- Clean annually by hosing dirt from the product with clean tap water, followed by cleaning with detergent. Do not use a pressure washer and/or scouring pad for this purpose. This damages the coating.
- Limescale can be removed with ADEZZ Descaler BIO.

## OPTIONAL

- For more dynamic garden elements, see our pond walls!

## RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016. For all other available RAL colours, please check our website. There is a start-up charge for these colours.

# Accessories

All our accessories meet the highest standards and are a highly suitable addition to our products. Visit [www.adezz.com](http://www.adezz.com) for a complete overview of our accessories.

## CLEANER & PROTECTOR

### ALUMINIUM

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

## DESCALER

### ALUMINIUM

We recommend the use of ADEZZ BIO Descaler + to remove limescale from your products. Always read the directions on the packaging carefully before use.

## RUST ACCELERATOR

### CORTEN STEEL

Our corten steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

## CORTEN VARNISH

### CORTEN STEEL

Corten varnish can be applied to the corten steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

# ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
