IGNITE YOUR NATURE

BRANN

BRANN

The BRANN brings warmth and cosiness to gardens and patios. This fire feature offers a clean flame and is easy to light, thanks to the built-in electric ignition. The BRANN can also be used as an attractive partition for outdoor spaces in hospitality venues.

FEATURES

With the simple addition of our BRANN table, you can create a pleasant and inviting atmosphere in your garden. Enjoy evenings outdoors to the fullest in the glow of its inviting flames.

The gas burner in the table is safe and easy to use. All parts are CE approved and have a long service life. You can enjoy your BRANN fire table for many years.

CORTEN STEEL

The bold, warm look of corten steel makes it the ideal material for this gas fireplace. The distinctive orange-brown colour is a patina formed by a natural rust layer. Another name for corten steel is weathering steel: weather conditions have a positive effect on this gas fireplace.

Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion and makes the product long-lasting.

SPECIFICATIONS

- 5-year guarantee.
- Includes burner and assembly hardware.
- Gas bottle not included.
- All parts are CE approved.
- The burner is made of high-quality stainless steel.
- Easy installation. The gas bottle can be stored safely and easily under the burner.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust on corten steel flaking off.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We strongly recommend against drilling in or grinding the metal. This allows moisture to permeate the coating, causing it to come off.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- Read the manual carefully before using the gas unit. It can be found under manuals and extras below.
- Please read the assembly instructions and operating instructions carefully before installing and operating the built-in gas burner. These can be found under manuals and extras below.

ALUMINIUM

The BRANN aluminium table has a timeless look and is corrosion resistant. This product can be left outside all year round. Once constructed, the gas fireplace is powder coated with a strong adhesive primer before being finished with a scratch-resistant colour coating. This coating is available in a variety of standard RAL colours.

SPECIFICATIONS

- 5-year guarantee.
- Includes burner and assembly hardware.
- Gas bottle not included.
- All parts are CE approved.
- The burner is made of high-quality stainless steel.
- Easy installation. The gas bottle can be stored safely and easily under the burner.
- Aluminium is very robust, hard-wearing, resistant to corrosion and durable.
- Available in RAL 7021, RAL 9016 as standard. Other standard RAL colours can be ordered for an additional charge.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- We strongly recommend against drilling in or grinding the metal. This allows moisture to permeate the coating, causing it to come off.
- Clean annually with ADEZZ cleaner/protector. Do not use a pressure washer and/or scouring pad. This damages the coating.
- Read the manual carefully before using the gas unit. It can be found under manuals and extras below.
- Please read the installation instructions and operating instructions carefully before installing and operating the built-in burner. These can be found under manuals and extras below.

ALUMINIUM WITH GARAPA HARDWOOD

We use only certified, legally harvested, durability class 2 tropical hardwood in our fireplaces. The BRANN aluminium with Garapa hardwood has a timeless look and is corrosion resistant. This product can be left outside all year round. Once constructed, the gas fireplace with Garapa hardwood is powder coated with a strong adhesive primer, before being finished with a scratch-resistant colour coating. This coating is available in a variety of standard RAL colours.

SPECIFICATIES

- 5-year guarantee.
- Includes burner and assembly hardware.
- Gas bottle not included.
- Finished with Garapa hardwood.
- All parts are CE approved.
- The burner is made of high-quality stainless steel.
- Easy installation. The gas bottle can be stored safely and easily under the burner.
- Aluminium is very robust, hard-wearing, resistant to corrosion and durable.
- Available in RAL 7021, RAL 9016 as standard. Other standard RAL colours can be ordered for an additional charge.

BELANGRIJKE AANDACHTSPUNTEN

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- We strongly recommend against drilling in or grinding the metal. This allows moisture to permeate the coating, causing it to come off.
- All hardwoods turn grey when exposed to sun, rain and wind.
- Wood is a natural product which shrinks or expands depending on temperature and moisture content. Regular oiling helps to stabilise the moisture content and limits shrinking and swelling.
- Clean annually with ADEZZ cleaner/protector. Do not use a pressure washer and/or scouring pad. This damages the coating.
- Read the manual carefully before using the gas unit. It can be found under manuals and extras below.
- Please read the assembly instructions and operating instructions carefully before installing and operating the built-in burner. These can be found under manuals and extras below.

Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.forno.eu for a complete overview of our accessories.

RUST ACCELERATOR

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

CLEANER & PROTECTOR

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
