IGNITE YOUR NATURE

BUNKE

BUNKE

Give your imagination free rein and create a wood store in any shape you like with the BUNKE. The BUNKE's interconnecting elements allow you to build a wood store to fit any area, so you can make efficient and attractive use of the available space.

FEATURES

BUNKE allows you to create your own wood store in a design that fits perfectly in your garden. The warm tone of corten steel perfectly complements the natural look of stacked wood. The BUNKE looks lovely outdoors, but it looks great indoors too! The modular system allows you to decide the size and shape of your wood store. Connectors make it easy to stack the boxes securely on top of each other.

The BUNKE is made of corten steel, which develops an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

SPECIFICATIONS

- 5-year guarantee.
- Box dimensions: 550 x 550 mm.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The boxes are made of corten steel with a thickness of 4 mm.
- The connectors are made of corten steel with a thickness of 6 mm.
- Connectors not included.
- We recommend that the boxes are always attached to each other to ensure strength and stability. Connectors are available in cross and T formats.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discoloration.
- Always place the wood store on a flat, stable surface.
- We advise securing the wood store to a wall to ensure stability.
- Products are delivered without rust. The corten steel rusting process takes about 4–5 months, depending on weather conditions. You can speed up this process by using our rust accelerator.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust from flaking off.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.

Note! Order connectors for front and back.

For example:

6 boxes with 8 cross connectors and 12 T-formats connectors.

Maintenance

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.forno.eu for a complete overview of our accessories.

RUST ACCELERATOR

Our Corten Steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

CORTEN STEEL VARNISH

Corten varnish can be applied to the Corten Steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

FORNO

IGNITE YOUR NATURE

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. FORNO offers a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All our products have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from fire tables to exclusive outdoor kitchens and from sturdy fireplaces to timeless wood storage.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
