Retaining walls

Retaining walls

ADEZZ retaining walls are the perfect solution for separating your lawn, borders or paving. They can also be used as planters. The retaining wall with a seating edge has the additional option of adding a seat. This makes it easy to create extra seating in your garden or outdoor space.

With our retaining walls you can always make the right shape. We have various sizes, angles and curves in stock. With the retaining wall with seating edge you can quickly create an extra place to sit. With the prefab system you can easily connect the retaining walls to each other.

Plain steel

Zinc layer

2 Layer powder coat

Corten steel

- ✔ Low maintenance
- ✔ Long lifespan
- ✔ Robust and strong

ABOUT THE MATERIAL

The powerful, orange-brown colour of the retaining wall comes from a natural layer of rust, which gives it a warm appearance. Corten steel, also known as weathering steel, is an alloy of metals that forms a protective layer against corrosion, which considerably extends its lifespan.

OTHER FEATURES

- The retaining walls are strong and wear-resistant.
- Weather-resistant and low-maintenance material.
- The rusting process of Corten steel takes approximately 4-5 months, depending on the weather conditions.

Aluminium

- ✔ Lightweight
- ✔ Corrosion-resistant
- ✔ Qualicoat class 2

ABOUT THE MATERIAL

Aluminium is resistant to corrosion and available in any RAL colour and our special coatings. It is lightweight and easy to process, making it ideal for various applications. It can remain outside all year round without damage or breaking in the frost. So you will enjoy these retaining walls for years to come.

OTHER FEATURES

- The aluminium undergoes multiple processes to guarantee quality.
- The powder coating is applied with a strong adhesive layer.
- Available in all RAL colours, our trend colours and our special coatings.
- Scratch-resistant material.

Coated steel

- ✔ Weatherproof
- ✔ Zinc-coated
- ✔ Qualicoat class 2 top coat

ABOUT THE MATERIAL

Sendzimir galvanised steel is a high-quality type of steel that is first hot-dip galvanised and then given a durable coating. After the hot-dip galvanisation, the material is roughened to ensure optimal adhesion of the powder coating. This powder coating is applied with a strongly adhesive primer, followed by a wear-resistant top coat of Qualicoat class 2. This top coat is available in any RAL colour, so you always have the perfect finish for your project.

OTHER FEATURES

- Zinc layer that protects against corrosion and rust.
- Resistant to impact and wear.
- Available in all RAL colours.

Design possibilities

With ADEZZ retaining walls, you can design your garden in unique shapes and levels as you see fit. These flexible elements combine functionality, durability and style. Quickly create a personal touch in your outdoor space!

Options

Easily add extra seating space with our hardwood seats, available in straight or curved. These seats are made of sustainable wood and are pre-mounted on galvanised steel strips. These strips make mounting on the bulkhead very easy! Go to [page 2](#) for the different types of wood.

ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
