Material corten steel

The corten steel letterbox has a warm look, thanks to the orange-brown patina on the metal. This patina is formed by a natural layer of rust. Another name for corten steel is weathering steel: weather conditions have a positive effect on this material.

Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to steel. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion and makes the letterbox long-lasting.

SPECIFICATIONS

- 5-year guarantee.
- Corten steel letterboxes are very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The letterbox has a soft-open feature and an anti-theft system.
- Includes a lock with 2 keys.
- The corten steel has a thickness of 2 mm.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust on corten steel flaking off.
- We also supply professional maintenance products.

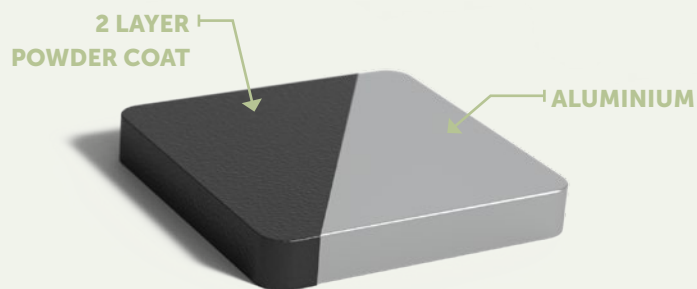

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by spraying with tap water to remove dirt and debris.

OPTIONAL

- We also supply house numbers and letters.

Material aluminium

The aluminium letterbox has a timeless look. Aluminium is also resistant to corrosion and is available in a variety of colours. The letterbox can be left outside all year round without damage, even in freezing temperatures. That means that you will enjoy this letterbox for many years.

Once constructed, the letterbox is given several finishing treatments. The metal is roughened to allow better adhesion of the powder coating. This powder coating is available in a variety of colours and is applied with a strong adhesive primer. Finally, the letterbox is finished with a hard topcoat. This ensures that the letterbox is scratch resistant.

SPECIFICATIONS

- 5-year guarantee.
- Aluminium letterboxes are very robust, hard-wearing, resistant to corrosion and durable.
- The aluminium has a thickness of 3 mm.
- The letterbox has a soft-open feature and an anti-theft system.
- Includes a lock with 2 keys.
- Scratch-resistant topcoat.
- We also supply professional maintenance products.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually with our ADEZZ cleaner/protector cleaner. Do not use a pressure washer and/or scouring pad. This damages the coating.

OPTIONAL

- We also supply house numbers and letters.

RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016. For all other available RAL colours, please check our website. There is a start-up charge for these colours.

Note! Colours may vary from the image.

RAL 7016

RAL 7021

RAL 9005

RAL 9016

Installation

1. Provide a flat (vibrated), solid surface. If not done carefully, it may result in damage to the product.
2. Mark the position of the holes at the bottom of the parcel box and drill holes in the pavement.
3. Place the parcel box on the flat pavement so the holes in the box can line up with the drilled holes.
Because the parcel box can be placed on the pavement, the box can be placed anywhere without having to dig. It is also possible to place the parcel box below ground level so the mounting lips of the box disappear below ground level.
4. Then fix the parcel box to the pavement with plugs or possibly a chemical anchor
Note! First loosely tighten all the bolts, after which they can be tightened fully one by one.

Accessories

All our accessories meet the highest standards and are a highly suitable addition to our products. Visit www.adezz.com for a complete overview of our accessories.

CLEANER & PROTECTOR

ALUMINIUM

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

RUST ACCELERATOR

CORTEN STEEL

Our corten steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

CORTEN VARNISH

CORTEN STEEL

Corten varnish can be applied to the corten steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

HOUSE NUMBERS AND LETTERS

ALUMINIUM - CORTEN STEEL

House numbers and letters can be ordered in corten steel and stainless steel. With the supplied kit, they can easily be attached to the location of your choice on the letter box.

ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
