**Water bowls**

## Water bowls

The water bowl is a beautiful addition to almost any outdoor space. It will create a pleasant, tranquil environment.

# Material steel

With its modern design, the steel water bowl will look splendid in any garden. Adding this water decoration to your garden will make it a place where you can really relax and unwind. Our water bowls are multifunctional. They have a hole that can be sealed with a rubber stopper, allowing them to be used as a planter. Remove the rubber stopper, and the water bowl also functions as a fire bowl.

## SPECIFICATIONS

- 5-year guarantee.
- Steel water bowls are hard-wearing, weatherproof, low-maintenance and durable.
- Products are delivered without rust. The steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the product and stops the rust flaking off.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- Our water features should be installed on a firm, level surface.
- The weathering process may cause rust run-off.
- The guarantee expires if you drill or grind in a way that is not specified.
- The water used in this product should have a neutral pH value (7) to protect the look and quality of the material.
- Clean annually by spraying coarse dirt off the product with tap water.

## OPTIONAL

- Take a look at our pedestals – they will show off your water bowl beautifully!

# Material coated steel

The steel water bowl is coated with anthracite. With its modern design, it will look splendid in any garden. Adding this water decoration to your garden will make it a place where you can really relax and unwind. Our water bowls are multifunctional. They have a hole that can be sealed with a rubber stopper, allowing them to be used as a planter.

Our anthracite water bowl is corrosion resistant. Coated steel is also durable and strong. Once constructed, the coated steel water bowl is given several finishing treatments. The bowl is galvanised to prevent rust formation, and a strong adhesive primer is applied. Finally, the water bowl is finished with a hard topcoat of Qualicoat Class 2. These layers ensure that the water bowl is of very high quality.

## SPECIFICATIONS

- 5-year guarantee.
- The colour of the coating is DB703 (anthracite).
- Coated steel water bowls are hard-wearing, weather-resistant, low-maintenance and durable.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- Our water features should be installed on a firm, level surface.
- The guarantee expires if you drill or grind in a way that is not specified.
- The water used in this product should have a neutral pH value (7) to protect the look and quality of the material.
- Clean annually by hosing dirt from the product with clean tap water, followed by cleaning with detergent. Do not use a pressure washer and/or scouring pad for this purpose. This damages the coating.
- Limescale can be removed with ADEZZ Descaler BIO.

## OPTIONAL

- Take a look at our pedestals – they will show off your water bowl beautifully!

## RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016.

For all other available RAL colours, please check our website. There is a start-up charge for these colours.

**Note!** Colours may vary from the image.

# Installation

1. Provide a level, solid surface. If not done carefully, this can cause tensions which can result in damage to the product.
2. Place your water bowl in the desired position.
3. On delivery the rubber stopper is already mounted in the water bowl. If it does become detached during transport, make sure that the plug seals the hole from above with the narrow side first.

**Tip!** Preferably use a large rubber mallet to insert the stopper.

4. Make sure the water bowl is level for the best result, when filled with water.
5. After the winter always check whether the rubber stopper still closes properly.

**Tip!** Use aquatic plants in the water bowl for an extra connection to the garden surrounding it.

# Accessories

All our accessories meet the highest standards and are a highly suitable addition to our products. Visit [www.adezz.com](http://www.adezz.com) for a complete overview of our accessories.

## CLEANER & PROTECTOR

### COATED STEEL

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

## DESCALER

### COATED STEEL

We recommend the use of ADEZZ BIO Descaler + to remove limescale from your products. Always read the directions on the packaging carefully before use.

## RUST ACCELERATOR

### STEEL

The products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

## CORTEN VARNISH

### STEEL

Corten varnish can be applied to the products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

# ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
