DESIGN TO GROW

Panels

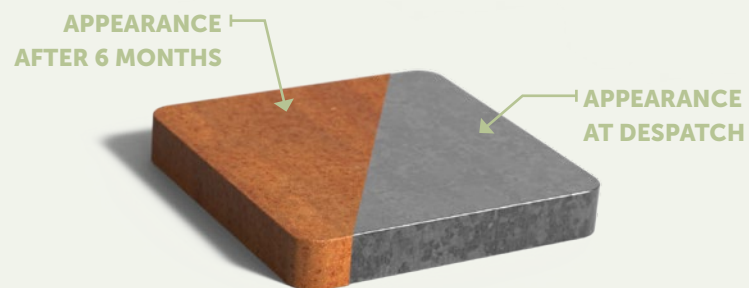

## Panels

Our panels can be used as a windbreak or to create a private corner in a garden. These panels are also striking works of art. We have a variety of beautiful designs and a basic design. They add an interesting extra dimension to a garden when set in lush greenery.

# Material corten steel

Corten steel panels give gardens a bold, warm look, thanks to the orange-brown patina on the metal. This patina is formed by a natural layer of rust. Another name for corten steel is weathering steel: weather conditions have a positive effect on these corten steel panels.

Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion so the panels will last for many years.

## SPECIFICATIONS

- 5-year guarantee.
- Corten steel panels are very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a standard thickness of 2 mm.
- Double-folded sides provide stability and an attractive finish.
- Multiple mounting options: fix to the ground or attach to posts or walls.
- Easy-to-access fasteners make installation simple.
- Products are delivered without rust. The corten steel rusting process takes about 4-5 months, depending on weather conditions.
- The rust can be fixed by applying Owatrol. This is a penetrating rust inhibitor that forms a protective anti-rust coating. Owatrol protects the planter and stops the rust on corten steel flaking off.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop uneven rust patches.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by hosing off dirt with clean tap water.

## OPTIONAL

- We also supply T-shaped posts for installing and connecting panels.

# Material aluminium

Aluminium is corrosion resistant: The panels can withstand freezing temperatures and other weather conditions without damage, so you can enjoy this product for many years. The aluminium panel is available in several colours.

Once constructed, the aluminium panel is given several finishing treatments. The metal is roughened to allow better adhesion of the powder coating. This powder coating is available in a variety of colours and is applied with a strong adhesive primer. Finally, the aluminium is finished with a hard topcoat. This ensures that our panels are scratch resistant.

## SPECIFICATIONS

- 5-year guarantee.
- Aluminium panels are very robust, hard-wearing, resistant to corrosion and durable.
- The aluminium has a thickness of 3 mm.
- Double-folded sides provide stability and an attractive finish.
- Multiple mounting options: fix to the ground or attach to posts or walls.
- Easy-to-access fasteners make installation simple.
- Scratch-resistant topcoat.
- We also supply professional maintenance products.

## KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by hosing off dirt with clean tap water, followed by cleaning with detergent. Do not use a pressure washer and/or scouring pad. This damages the coating.

## OPTIONAL

- We also supply T-shaped posts for installing and connecting panels.

## RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016. For all other available RAL colours, please check our website. There is a start-up charge for these colours.

**Note!** Colours may vary from the image.

RAL 9016

# Installation

1. Thanks to the T-shaped posts, the panels can be easily installed without needing to level the substrate. Always make sure that the T-shaped posts are level!

**Note!** Always place the T-shaped posts level in the ground.

2. After placing the T-shaped posts in the substrate, the panels can be attached to the posts (see details below).
3. Thanks to the multifunctional T-shaped posts, all kinds of shapes can be created with the panels. The panels can be installed on ground level thanks to the long anchoring pins at the bottom of the T-shaped posts.
4. Finish potential paving or use soil/plants to ensure that the panels are on or just below ground level.

# Accessories

All our accessories meet the highest standards and are a highly suitable addition to our products. Visit [www.adezz.com](http://www.adezz.com) for a complete overview of our accessories.

## RUST ACCELERATOR

### CORTEN STEEL

Our corten steel products are delivered un-rusted and the weathering process will take approximately 4-5 months. This process can be accelerated with the BIO rust accelerator available on our website. Always read the descriptions on the packaging carefully before use.

## CORTEN VARNISH

### CORTEN STEEL

Corten varnish can be applied to the corten steel products to stop the weathering process. Always read the descriptions on the packaging carefully before use.

## CLEANER & PROTECTOR

### ALUMINIUM

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

# ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
