

ONE TO SIT

Product information: Aluminum furniture

Aluminum furniture are made of 4 mm thick Aluminum. Aluminum is light, strong, durable and resistant to corrosion. Once constructed the Aluminum gets the following treatments:

1. Roughing of the material for a proper bonding
2. Powder coated with a strong adhesive primer
3. Finished with a scratch resistant coloured coating

Advantages:

- Very strong, wear-resistant and durable
- Light in weight
- Resistant to corrosion
- Scratch resistant coating
- In almost all RAL colours available
- Professional cleaning/protecting product available
- 5 year warranty

Important:

- The products must be unpacked immediately after delivery so any moisture between the packaging and the product is not sealed. This can cause stains that are difficult to remove.
- Clean products at least once a year. Preferably with the ADEZZ CLEANER+PROTECTOR BIO.

Optional:

- Available in almost all RAL colours
- Adjustable legs with most models
