Planters aluminium

Material aluminium

Once constructed, the planter is given several finishing treatments. The metal is roughened to allow better adhesion of the powder coating. This powder coating is available in a variety of colours and is applied with a strong adhesive primer. Finally, the planter is finished with a hard topcoat. This ensures that the aluminium planter is scratch resistant.

SPECIFICATIONS

- 5-year guarantee.
- Aluminium planters are very robust, hard-wearing, resistant to corrosion and durable.
- The aluminium has a thickness of 3 mm.
- The planter has (hidden) feet and drainage holes. This allows it to float a little above the ground and provides optimal drainage.
- Scratch-resistant topcoat.
- The planter can be customised.
- We also supply professional maintenance products.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. This moisture can cause stains that are difficult to remove.
- Keep the drainage holes clear to allow excess water to run off.
- The guarantee expires if you drill or grind in a way that is not specified.
- Clean annually by hosing dirt from the planter with clean tap water, followed by cleaning with detergent. Do not use a pressure washer and/or scouring pad for this purpose. This damages the coating.

RAL COLOURS

Standard RAL colours are RAL 7016, RAL 7021, RAL 9005 and RAL 9016. For all other available RAL colours, please check our website. There is a start-up charge for these colours.

Note! Colours may vary from the image.

Installation

1. Provide a flat, solid surface. If not done carefully, it can create tension in the product which can result in damage to the product.
2. If desired, place overflow pipes in the designated place in the bottom of the planter to create a water reservoir. The number of overflow pipes to be used depends on the number of drainage holes, view the drawings on our website for the correct number.
3. Pull rod in planters are essential for the construction and dimensional stability of the planter. A tension rod must never be removed!
4. Always provide sufficient breathing space (minimum 1 cm) around the planters to prevent moisture trapping.

Install wheels

1. Wheels are supplied separately with the planter. Assembly is very easy, see image on the right.
2. Insert the bolt with washer on the inside of the planter through the hole in the square plate.
3. Slide the wheels over the bolts and then tighten them with the supplied nuts.

Planting advice

1. Insert the overflow pipes into the drainage holes prepared for them.
2. Fill the planter with about 10 cm of drainage material.
3. Place a permeable anti-root membrane over the drainage material.
4. Cover the membrane with soil suitable for your chosen plants.
5. Keep the drainage holes clear so that excess water can run off.

Infinity system

Thanks to the infinity system, it is possible to create an "infinitely" long planter (delivered in sections). The system can be used for both curved and straight shapes. All supplies for connecting the planters are included.

BLINDLY CONNECTED

Simple bolt and nut construction makes mounting easy.

Accessories

All our accessories meet the highest standards and are an highly suitable addition to our products. Visit www.adezz.com for a complete overview of our accessories.

CLEANER & PROTECTOR

We recommend cleaning our products at least twice a year. For optimal results, use the ADEZZ BIO Cleaner & Protector. Always read the descriptions on the packaging carefully before use.

WHEELS

Wheels are an option on many of our products. Check www.adezz.com for the options per product (Total load capacity 450kg).

OVERFLOW PIPE

Overflow pipes provide a water buffer at the bottom of the planter and fit into the standard drainage holes, making them easy to install.

ADEZZ

DESIGN TO GROW

Spending time outdoors has soared in popularity over the last few years, becoming an increasingly important part of our daily lives. Our brands ADEZZ, FORNO and FURNS offer a diverse range of products guaranteed to enhance the outdoor experience. Our collections create an ambience in which you can enjoy your garden to the fullest.

All brands have their own character, but they are designed to work together, allowing you to create endless combinations. The materials, finishes and styles are repeated across the collections so that they coordinate beautifully. The result? A long-lasting, stylish garden design: from sleek edging to exclusive furniture and from sturdy fireplaces to elegant water tables.

We design and manufacture all our products in-house, ensuring that we can continue to provide the high quality that you have come to expect from us. And we do this at the most competitive price possible. All our products are made in Europe with the utmost care, so we can be sure that they meet our exacting standards.
